EXPERIENCE

- Senior Microsoft CRM Dynamics Developer, *LinkDevelopment***01/2025 – Present
Cairo, Egypt
- Developed and customized enterprise solutions using Microsoft Dynamics 365, Dataverse, Power Platform, C#, .NET Framework, and JavaScript.
 - Built Dynamics 365 plugins, custom workflow activities, business processes, and client-side customizations to automate business operations and enforce complex business rules.
 - Built automated CI/CD pipelines using Azure DevOps for API and portal deployments across all environments, reducing manual deployment effort by 10% and improving release consistency.
 - Upgraded our Angular project from v13 to v19 to leverage the latest framework features and improvements.
- Microsoft CRM Dynamics Developer, *LinkDevelopment***07/2023 – 12/2024
Cairo, Egypt
- Designed and implemented REST API integrations between Dynamics 365 and external systems, including data mapping, authentication, error handling, and troubleshooting.
 - Designed and implemented Power Automate cloud flows to automate business processes, integrate Dataverse with external services, send notifications, and reduce manual activities.

PROJECTS

- Power Tools** 📄, *Dataverse Developer Toolkit*
- Developing a desktop toolkit for managing Microsoft Dataverse environments and simplifying common developer operations.
 - Built secure OAuth authentication and multiple-environment connection management.
 - Developed a data migration tool for transferring selected records and related data between Dataverse environments.
 - Created a FetchXML Builder that enables developers to visually construct and generate FetchXML queries for Dataverse.

SKILLS

- Dynamics 365 Development**
Dynamics 365 CRM, Power Platform, Power Automate, Dataverse, Plugins, Custom Workflows, Business Process Flows
- Front End**
Angular, HTML, CSS, JavaScript/TypeScript, Bootstrap
- Back End**
